

# Slingsby's Allemande

*Trad. ed. PJHeadford*

*UK, Norfolk, Cawston and Norwich*

♩ = 90

It is not clear whether the rest at v is to left of the note A, or above it.  
Similarly, at \$ the rest is under the notehead of the g. (The note stems in the MS  
for this bar are all downward.) The last rest is shown as in the MS.  
I can't think of another letter to put between Sling and by's. The MS has  
what looks like f. Not one of those old-fashioned esses, either.
